PUBLIC COMMENT 8400004

Office of the Administrator (OA)

I was reading today about updated guidelines for drug testing. I have been subjected for years to the present guidelines. My understanding is that you have opened up for public comment of your new guidelines. I would like to submit mine.

I have no problem with drug testing IF the hypocrites from the top down that are imposing these laws on us are subjected to the same guidelines as we servants. I have always found it amazing as I sit in a doctor's office forced against my will to urinate in a jar and be treated like a criminal that our "leaders" are not expected to do the same. I would submit that their jobs are much more sensitive than mine and cannot accept the fact that they are not covered under these laws. If these lawmakers are not covered under these new guidelines then I am against them.

Thank you.

David Vanderweel
